Date of Meeting: 26 July 2023

Report Author: Cllr Lowe

Title: Electricity Supplier 2024

Subject: Finance Report – Supplier agreement

Based on the outstanding Actions from Full Council.

Answer to points raised.

RCC use the same supplier as us and thought the rates seemed market price.

Lights in Cutts Close are unmetered and current supplier cannot take that on. Leave with n-power 33p unit and monitor.

Toilets and Shelter, current supplier rate as discussed (currently 15p, proposed fixed 12 months at 33p) the recommendation was that OTC remain with the current supplier as they were offering the best rates.

The POD point is fed from the toilet electrical supply so no impact except we will need to adjust our charges through POD point.

Proposal: OTC Agree to remain with current electrical supplier for a fixed year only from January 2024, prices are reviewed in the summer of 2024.

OTC identify a new charging rate in the next three months for the customers of the POD point electric car charging point.
