- Resident – “Just a quick note to acknowledge how amazing the planters on the Barleythorpe Road railings on the boundary of the Centenary Field have been this season. Despite the dry summer conditions they have continued to provide a wonderful display of colour and at present look even better now the adjacent young Japanese Acer Trees are showing their startling Autumn colour (photo attached). The planters provide a real show of colour and encouragement to anyone walking or driving into or out of the town and are praised by everyone. The Planter suppliers and watering services should be congratulated.
